NFU POSTS CHALLENGE TO CANADIAN CATTLEMEN'S ASSOCIATION

The National Farmers Union today posted the following notice and challenge on its website at www.nfu.ca:

“Where’s the beef...plan?”

The Canadian Cattlemen’s Association has published a response to the NFU cattle report. We invite you to read both the NFU report and the CCA response, and decide for yourself which offers the most penetrating and reliable analysis. Click here to link to the CCA website and its response document.

In the interests of helping farmers/ranchers make informed decisions, the NFU also challenges the Canadian Cattlemen’s Association to provide a link on its website to the NFU cattle report.”

“We think it is vital that everyone start working in the interests of Canada’s livestock producers—especially our cow-calf operators,” said NFU President Stewart Wells, “and we think that directing people to the CCA’s website response may help focus attention on the many problems.”

“We are challenging the CCA to reciprocate, and provide a link on their website to the NFU cattle brief, available at <http://www.nfu.ca/briefs/2008/LivestockEXECSUMFINAL.pdf> - as we say on the notice “In the interests of helping farmers/ranchers make informed decisions.”
